

## Academy 2020: Specific regulations related to the COVID crisis 19.

We wanted to offer you the opportunity to have a musical summer despite the current crisis. We strictly follow the French regulations on COVID 19 (Decree no. 2020-663 of 31 May 2020). It is imperative that students and professors do the same. It is a shared responsibility and a shared conscience.

We have adapted the entire organization of the summer academy, in order to respect the rules of social distancing by avoiding student groups. We ask you to be careful to respect these rules.

### 1. General:

- Directions of circulation in the building have been determined, thanks to respect them.
- The rooms have been arranged, focusing exclusively on rooms with large areas.
- You must respect the rules of social distancing by maintaining a free space of 1m around you.
- The wearing of the mask is **mandatory** in the common areas. Please remember to have enough masks for your week, the academy will not provide you.
- Wearing the disposable glove is also recommended in the common areas. If you want to wear them, don't forget to bring your equipment.
- Be sure to wash your hands regularly with soap and water. The sanitary check and supply of liquid soap dispensers and disposable hand dryers is supported by the academy. Hydro-alcoholic gel will also be made available at strategic points.

### 2. Cleaning:

- Regular cleaning of common areas and points of contact is planned by the academy.
- Cleaning equipment will also be provide for instruments in shared workspaces.

These provisions do not prevent you from providing cleaning equipment. We insist on the need to be as invested as we are in the good running of this event. To ensure the safety of everyone, do not hesitate to disinfect your shared instrument before using it, and after your use.

The traceability of the cleaning will be carried out, so that everyone can know when the disinfection took place last. Every time you clean the instrument, remember to note it on the cleaning panel.
